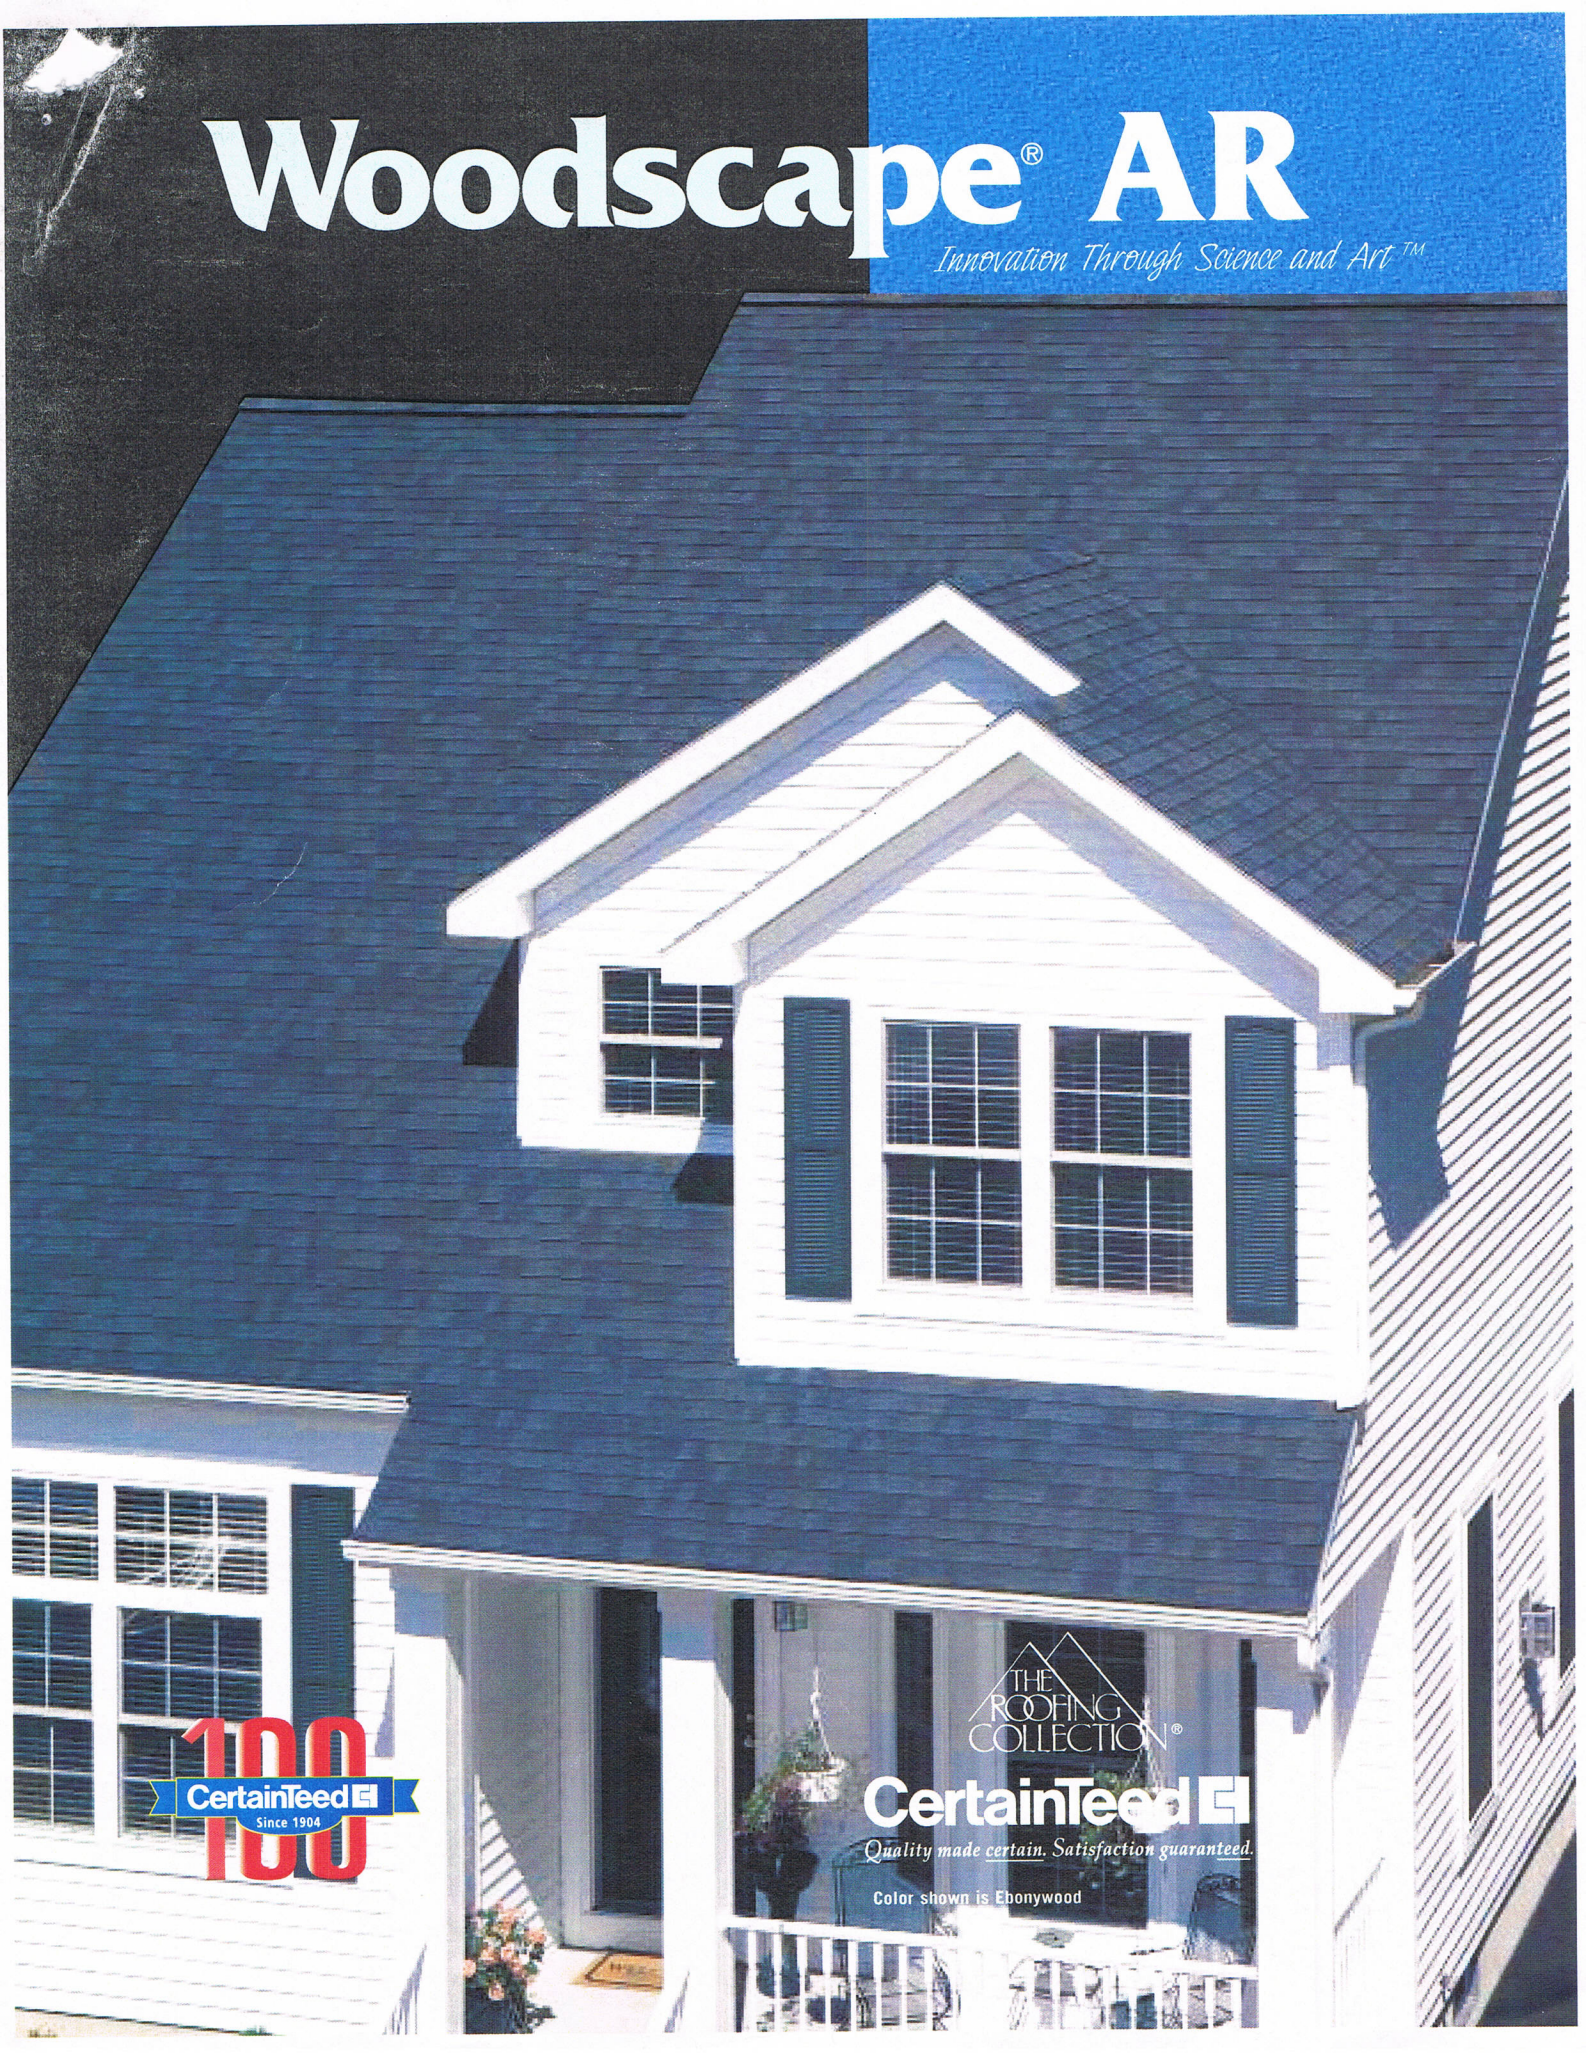
Woodscape® AR

Innovation Through Science and Art™



Classic New England character is its signature.

A Hard Working Product that is the Product of Hard Work.

These are heavy-duty, hard-working shingles built to weather the elements and the storms that so often accompany the changing seasons.

The mat is an especially tough fiber glass. The laminate construction makes the shingles strong enough to resist rot, decay, and damage from the sun's rays.

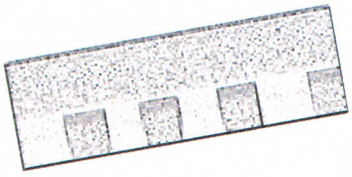
After all, what good is a beautiful roof if it doesn't stay beautiful?

Protect Yourself.

Be sure to ask your roofing contractor for a copy of the CertainTeed product warranty or call the CertainTeed Home Institute at 800-782-8777 to request a copy. We make it easy for you to view our warranties and register your investment online at www.certainteed.com/warranty.

*See actual warranty for details and limitations.

Protected under the following patent: 5,951,809.



Additional asphalt and heavier reinforcements provide exceptional resistance to blow-off and tearing.

The Integrity Roof System™

Superb performers that work even better as a team...

INSTALL THE SYSTEM.

WinterGuard™
Waterproofing shingle underlayment prevents leaks from ice dams and wind-driven rain in vulnerable areas.

Roofers' Select™
High-performance underlayment as a secondary barrier against leaks.

CertainTeed Shingles
High-quality shingles available in a wide variety of styles and colors, covered by one of the best warranties in the business.

Ventilation
A properly balanced ventilation system improves air circulation and provides year round benefits.

Flintlastic™ Roll Roofing
A selection of high-quality roll roofing products, including Flintlastic SA self-adhering membranes, for porches, carports, canopies, additions, and any low-slope roof. Available in 8 colors to match or complement CertainTeed shingles.

The Woodscape® Series is available in areas shown
Note: All colors available to International Sales

The Color Selection Process

For a homeowner, the choice of color can be among the greatest challenges of selecting a roof. To assist you in choosing a color that will satisfy your expectations, take the following steps:

1) View a full-size shingle

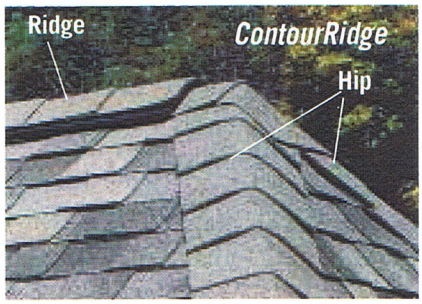
2) See actual roof applications

3) Because the appearance of a roof may vary depending upon the light exposure, consider viewing several roof applications under various kinds of light, i.e. bright sun, partial sun, full cloud, etc.

4) Determine if the pitch of your roof will impact how a shingle color will look on your home. To make the best selection, view homes with your shingle color choice with roof pitches similar to your own.

NOTE: REPRODUCTION OF COLORS throughout this publication is as accurate as modern printing will permit. Colors are subject to changes by granule manufacturers.

Hip And Ridge Accessories



Complete your roof with CertainTeed hip and ridge capping. These accessories provide visual appeal to the roofline.

- Available in three profiles:
- Standard (Shadow Ridge)
- Medium (ContourRidge™, shown above) for enhanced definition
- High (ElevationRidge™) for the most definition and pronounced profile
