Short description of the proposed changes. (Provide the details on page 2 and on additional sheets and exhibits as necessary).

A large generator and propane tank are currently installed in the parking lot between Town Hall and the First Congregational Church. This is an emergency, temporary location – National Grid did not provide the three-phase power necessary for the elevator in time.

The generator, tank + related appurtenances will be removed upon completion of three-phase power + load-up of power. *CL*
