 decision/date:

Proposed Change(s): Describe below in detail.

SEE ATTACHED DRAWING

Finish off side porch as started by the Kymlainens.

The porch will be made of wood, as was the original structure. This was proven by removal of shingles on the house which revealed the presence of wooden support beams which would have supported the original floor.

Lattice work will be added underneath the porch, similar to others on the Common. At the present time we will be ~~placing support columns (some of which are already in place) extending from the porch floor to the porch roof. Eventually we will be adding a railing with spindles which is shown on the attached drawing.~~ *Perpendicular*

The new structure will be painted white, with a grey floor.

Signature of Applicant: Lorraine DyerLorraine Dyer

Justification for Certificate of Hardship:

FOR HISTORICAL DISTRICT COMMISSION USE ONLY:

Certificate of Appropriateness granted 11/24/86.Rahena Burchard, Chair
