Description of changes (attach additional sheets and exhibits if necessary):

Install 3 stainless steel chimney caps on top the 3 chimneys, to prevent water from coming down the flues. The general style of the caps is illustrated below. They are comparable to other caps installed on the Royalston common. The sizes will match the chimeys. Two of them will be 8" tall, while the third one may be slightly higher as its height will be 5" above the highest flue, which is a few inches above the brick exterior.. *Painted Black*
