Application for Certificate

Instructions:

- Use separate applications for changes that are not related to each other.
- Sketches or pictures showing design and sizes, exact colors, materials, etc. must be included.
- File four copies of the completed application at a HDC meeting; or mail, e-mail or give it to a commission member for filing at the next meeting.
- It is recommended that applicants attend the meeting or send an agent. Even well prepared applications generate questions and answering them quickly will avoid delays.
- Certificates expire a) after one year if the work was not started and pursued diligently, or b) in case of sale.
- If you have any questions, please contact the Commission.

Detailed Description

The dimensions of the grape arbor are 9ft. x 9ft. x 7' 11" high. Four 7 ft. columns in the same style as columns existing on the screened porches of the house support the traditional trellis above. The "roof" trellis sits 11" above the columns so that the total height of the structure is 7' 11".

The columns are primed & painted white to match the existing columns on the house porches. The trellis above is stained in a natural wood color to carry the grape vine and so as not to compete with the columns.

The position of the arbor on our side of the library garden fence is to provide a traditional structure for the existing very well established grape vine on our property that has been strangling the surrounding trees & bushes.

We apologize that this is an after the fact application.

Thank you for your consideration.
Patience Bundschuh
