Description of changes (attach additional sheets and exhibits if necessary):

The Village School has installed at 3 foot tall, green (vinyl over wire) 100 foot long mesh fence along the playground, to separate the playground from the driveway. This is a safety issue, to prevent children from running into the driveway and being hit by a car. The fence is temporary in nature, and can be removed easily. We intend to remove it when we leave the Raymond School building. The fence is not visible at all. It can only be seen from about 10 feet away. One pressure treated post was installed in the corner near the handicap ramp, and the rest of the fence is attached to small posts pounded into the ground. The mesh is approximately 2" by 3" mesh.

The whole purpose of the fence is to keep children, especially preschoolers, from running into the driveway.
